Take a guided tour, including wine tasting, during which you will walk to the heart of the underground tunnels – nearly a kilometre long – that have been carved into the solid limestone rock. After exploring the wine-tasting cellar and shop, you can relax on the terrace overlooking the Moselle. The Caves St Martin hosts many workshops and special events, and refreshments are available from the Pavilion Saint-Martin. Magical rock formations and footpaths

Dense woodlands criss-crossed by rushing streams, extraordinary biotopes with towering sandstone formations, narrow rocky ravines, mysterious caves and gorges and an amazing variety of plants and trees: welcome to the Mullerthal also known as 'Luxembourg's Little Switzerland'.

The best way for hikers to discover these landscapes is on the 112-kilometre Mullerthal Trail. The geological legacy and the enormous variety of plants are best seen in the Mëllerdall Nature & Geopark, which has been nominated for the UNESCO Global Geopark label. The Mullerthal is a magical place with

long-established traditions: several of the award-winning hiking trails actually have their origins in the 19th century.

Many paths lead to Echternach, the historical and cultural centre of the Mullerthal region. The largest town in the region is the home of one of Luxembourg's most important traditions. At the Echternach Hopping Procession on Whit Tuesday of every year, thousands of people dance around the great abbey in a unique hopping step accompanied by traditional music. The procession was awarded UNESCO World Cultural Heritage status in 2010.

Just around the corner, you'll find the Renaissance castle, which dates from the 17th century. The fascinating interiors bring the magic of the past to life. The castle can only be visited on a guided tour, which ends with an opportunity to taste the chateau's famous Casséro liqueur.
